# Economic Perspective

01. Statistics &  
Econometrics

02. Cost-Benefit  
Analysis

03. Behavioral  
Economics

# Statistics & Econometrics

- Analyze how corruption relates to GDP, education and crime rates
- Example: Countries with higher corruption perception often show lower foreign investment

# Cost-Benefit Analysis

- Compare the cost of improving the justice system with the cost of social instability
- Helps prioritize policy reforms efficiently

# Behavioral Economics

- Understand why people break rules or distrust institutions
- Helps design better incentives and communication strategies
