### « Blue Diary »

受到《藍色》台詞的啟發，本作品探討了聲音與顏色、材料和針織結構的聯結。

影像設計將聲音誘發情緒的大腦關聯與視覺元素融合。聲音的情感引導著布料、顏色和圖案的變化，旨在創造多感官體驗，使聲音和針織品協同增強彼此，沉浸在情感和視覺的動態變化中。

*In May,  
 Taiwan is bathed in shades of blue.  
 Morning streets, the sky a pristine blue,  
 I wander through the heart of the city,  
 Feeling the blue pulse of its rhythm.*

*Inspired by the temperature changes during the journey, the colours of the knitted fabric shift with the temperature, creating different emotional effects.*

*Every corner of this city  
Bears the imprint of blue.  
Blue is hope, dreams, a warm embrace,  
In this corner of blue, I found myself,  
Found a life of poetic grace.*

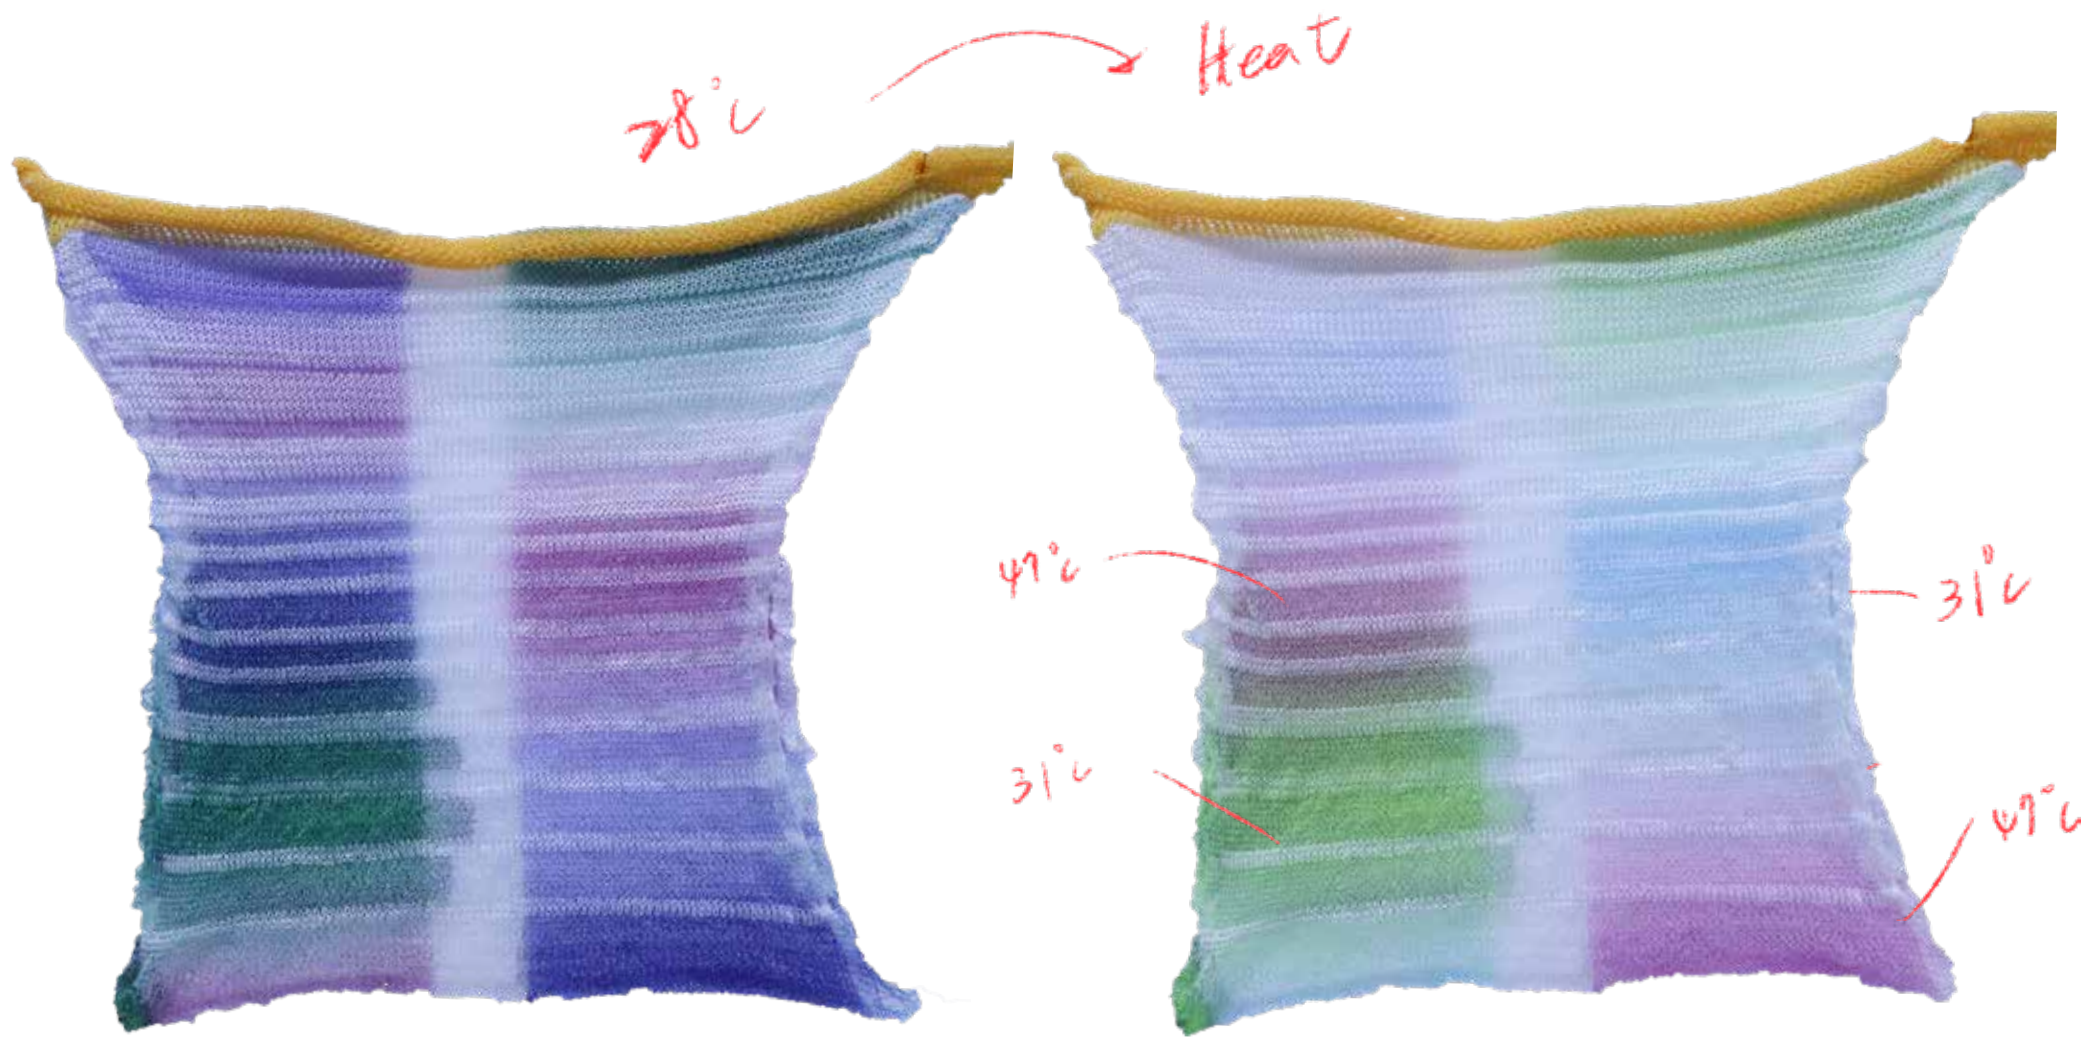

*From daylight, the streets are silent,  
Then into the night, blue neon lights flicker,  
Crowds surge like waves,*

*Blue moonlight spills onto the ground.*

**Thermochromic textiles produce dynamic color changes in response to fluctuations in ambient temperature.**

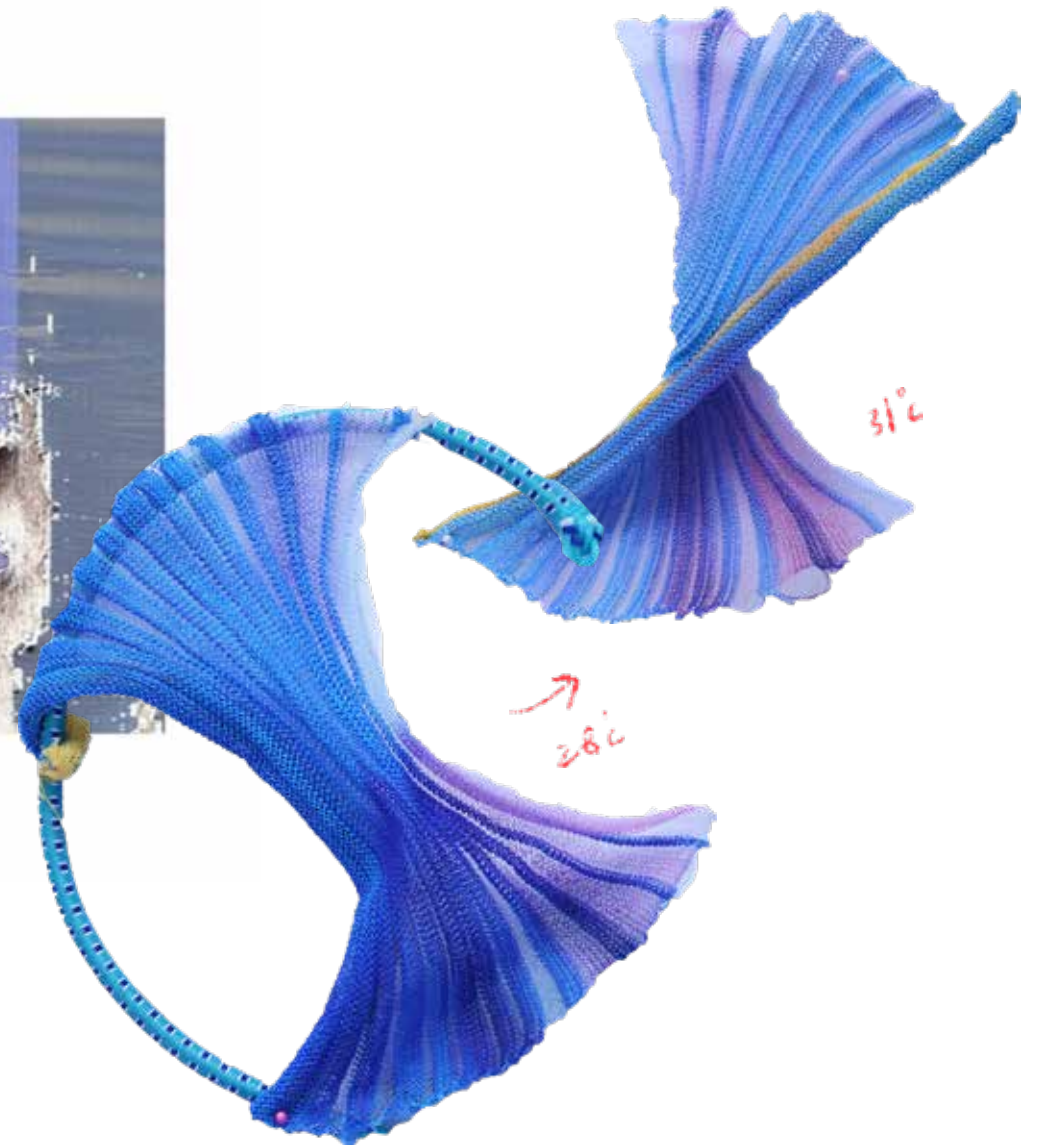

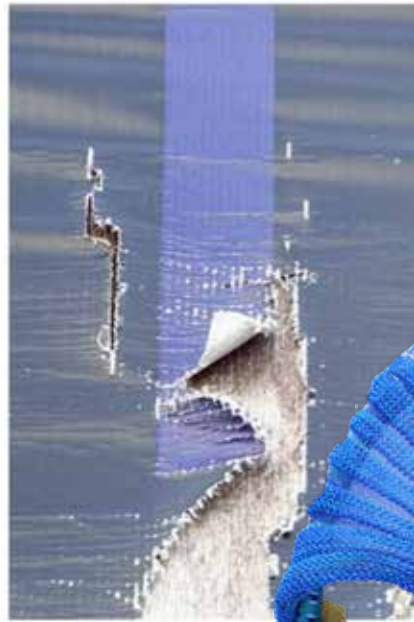

The characteristics and surface texture of thermochromic textiles create unique visual effects.

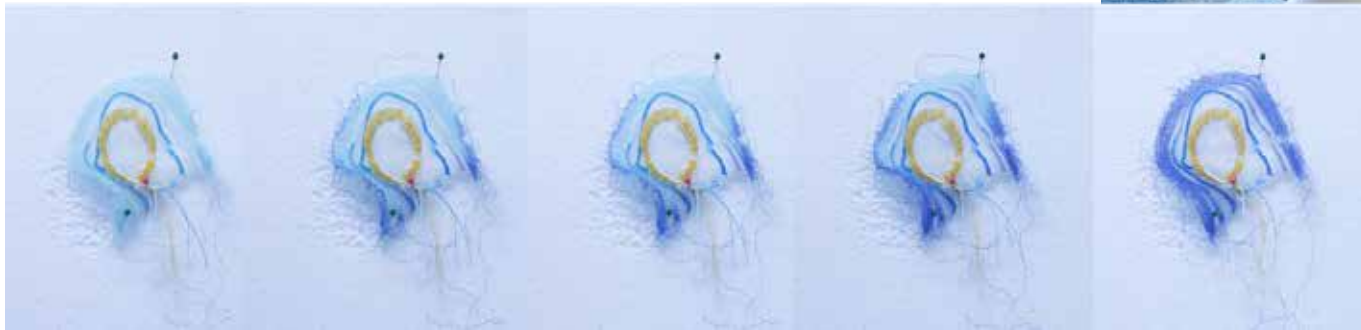

*Rhythm of textile and blue.*

*In this freedom and tranquility,  
Loneliness sometimes creeps in,  
Yet it enriches my soul.*

*O Blue come forth  
O Blue arise  
O Blue ascend  
O Blue come in*
