Child sexual violence has soared by 1,000%!

A Haitian girl was kidnapped, drugged and raped for a month.

According to reports from BBC and others, Haiti has been mired in political instability for decades. In recent years, the situation has worsened due to the growing power of criminal groups. UNICEF spokesperson James Elder pointed out that "The increase in sexual violence against children in Haiti has soared by 1,000%, which is shocking."

What can we do to ***HELP THE VICTIMS?***

1. Enhance children's self-protection awareness.
2. Pay attention to relevant news and offer support together.
3. Kenya recently announced its willingness to lead a multinational peace support force to assist Haiti's overwhelmed security forces, with the United States pledging support.

The largest case of child sexual abuse in France: a doctor accused of pedophilia, with 299 victims

Joël Le Scouarnec, a retired gastrointestinal surgeon, stood trial in France for one of the country's largest child abuse cases, which involved 299 alleged victims over 25 years across multiple hospitals and clinics. The victims ranged in age from two years old to young adults. Le Scouarnec had previously been convicted in 2020 for the sexual abuse of his nieces and a neighbor. He was serving a 15-year sentence for these crimes.

What we can do to help the victims?

1. Petition to abolish or extend the prosecution period for sexual assault cases (discussed in France in recent years).
2. Implement protection policies such as "the presence of a third party is required for the diagnosis and treatment of minors".
3. Support schools to develop a "bodily autonomy" curriculum to teach children to identify inappropriate exposure.
